## Finding

PO-2026-00418 was approved by Liam Jacobs for ZAR 254,380 without required CFO approval and without three quotations.

## Cause

Workflow used the supplier agreement limit of ZAR 300,000 instead of the lower current internal Delegation of Authority limit.

## Correction of earlier fact

Asset FL-07 was recorded at Germiston Plant in the 01 July asset extract. Physical verification confirmed it moved to Midrand Warehouse on 20 July 2026. The later location supersedes the earlier record from that date.

## Recommendation

Enforce policy-effective dates, block release above authority, and require evidence of quotations.

## Management response

Accepted. Workflow remediation assigned to Project Atlas.
